

Why Treasury Curve?

At Treasury Curve, we know treasury professionals are under increasing pressure to optimize cash and investments while reducing costs and complexity. That's why we focus on what truly matters:

1 Providing the Essential Tools That You Need.

Essential Tools for Optimizing Treasury

Managing cash and investments shouldn't be complicated. Treasury Curve gives you everything you need in one easy-to-use platform – without the layers of complexity found in other solutions. With direct connections to over 11,000 financial institutions, you get seamless access to the markets and services essential for success. With Treasury Curve, you can:

- ✓ Optimize cash and investments in one centralized platform
- ✓ Count on secure and direct connections to leading financial institutions

Any claims, statements or testimonials may not be representative of the experience of all clients and is no guarantee of future performance or success.

Investments like stocks, bonds, mutual funds and annuities are: Not FDIC Insured | Not Bank Guaranteed | May Lose Value

Investments in money market funds are not guaranteed or insured by the Federal Deposit Insurance Corporation or any other government agency. While money market funds seek to maintain the value of your investment at \$1.00 per share, it is possible to lose money by investing in these funds. The prospectus is available via the link to the asset manager on the Research page in the column entitled Fund Company URL. The prospectus contains more complete information about each Fund including distribution fees and expenses. An investor should read the prospectus carefully before investing or sending money.
